SOLUTIONS

## SIDE LOADING CASE PACKER

HERA is OMET's new **horizontal loading case packer**, designed to automate the packaging of products into cases, arranging them in the **desired quantities and configurations** while ensuring a reliable closure with adhesive tape or hot-melt glue.

**Compact, modular, and versatile**, it delivers speed, precision, and continuous operation, with quick format changes and direct pallet-fed case loading for maximum efficiency.

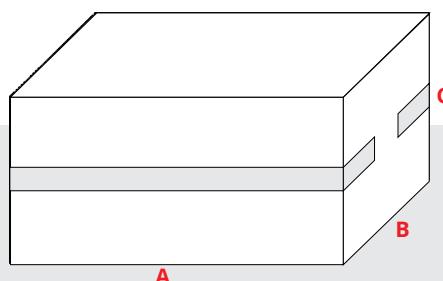

**HERA:**  
**the versatile and intuitive**  
**case packer, suitable for**  
**a wide range of products.**  
**Quick changeovers and**  
**servo-assisted technology**  
**ensure efficiency, precision,**  
**and continuous operation.**

### PERFORMANCE / TECHNICAL DATA

CASE		LENGTH (A)	WIDTH (B)	HEIGHT (C)
<b>HERA</b>	Min.	250 mm	180 mm	150 mm
	Max.	700 mm	500 mm	600 mm
<b>MAXIMUM SPEED</b>	Infeed	Up to 140 pieces/min		
	Outfeed	Up to 10 cases/min		

Technical data contained in this sheet are not binding.  
OMET is entitled to change the features of the products without prior notice.

The above dimensions refer to standard machine configuration.

Any modifications outside the standard limits are available on request.

## UNIQUE FEATURES

### COMPACT LAYOUT

- Optimizes space and simplifies installation
- Modular structure, easily integrated into existing lines or combined with other OMET solutions

### EASY AND FAST LOADING

- Cartons supplied directly from the pallet, reducing handling time
- Quick setups to increase overall line efficiency

### SPEED AND PRECISION

- Reliable and continuous packaging process
- Wide range of formats with fast changeovers

### QUALITY AND RELIABILITY

- Designed and built in Italy, combining robustness with functional design
- Intuitive operation, fully automated, with quick maintenance

### GREEN APPROACH

To further reduce costs and waste, HERA can be adapted to bypass primary packaging, allowing direct case packing of loose products from upstream folding machines.

### AVAILABLE OPTIONAL UNITS

- Additional formats
- Cardboard lid inserting unit
- "U" shaped inserting unit
- Conveyor belts for upstream machine connection
- Incoming package handling devices
- Non-standard pack/case dimensions
- Motorized outfeed roll conveyor with carton inverter
